## MS5 Triple Square Magnet Cabinet Locks

### Key Features

Three MS05 cabinet locks together

No external housing on magnet

Simple rear fixing

Great for securing doors with door operators fitted where there is limited space for traditional maglocks

### Product Description

The MS5T combines three MS5 micro cabinet locks into a single unit, providing increased holding force in a compact format. With no external housing and a simple rear fixing, it is ideal for installations where space is extremely limited. This solution is particularly well suited to doors fitted with operators, where traditional maglocks cannot be accommodated.
